The Board is responsible for, and has the authority to determine all matters relating to the strategic direction, policies, practices, establishing goals for management and the operation of the Company.

In relation to the Company's Corporate Governance Policies the role of the managing director or CEO will be performed by only one person given the company's current scope and present size.

The monitoring and ultimate control of the business of the Company is vested in the Board. The Board's primary responsibility is to oversee the Company's business activities and management for the benefit of the Company's shareholders. The specific responsibilities of the Board include:

- (f) via management, an appreciation of areas of significant business risk and ensuring that the Company is appropriately positioned to manage those risks;
- (g) overseeing the management of safety, occupational health and environmental matters;
- (h) satisfying itself that the financial statements of the Company fairly and accurately set out the financial position and financial performance of the Company for the period under review;
- (i) satisfying itself that there are appropriate reporting systems and controls in place to assure the Board that proper operational, financial,
- (j) compliance, and internal control processes are in place and functioning appropriately;
- (k) to ensure that appropriate internal and external audit arrangements are in place and operating effectively;
- (l) having a framework in place to help ensure that the Company acts legally and responsibly on all matters consistent with the code of conduct; and
- (m) reporting to shareholders.

Given the present size and complexity of the company, the Board has decided that separate committees are not required. As the complexity and size of the company increases the following committees will be established:

- (a) Audit Committee;
- (b) Nomination Committee; and
- (c) Remuneration Committee.

Each director has the right to seek independent professional advice on matters relating to his position as a director of the Company at the Company's expense, subject to the prior approval of the Chairman, which shall not be unreasonably withheld.

In the event of a conflict of interest or where a potential conflict of interest may arise, involved directors will, unless the remaining directors resolve otherwise, withdraw from deliberations concerning the matter.

In accordance with the constitution of the Company, directors (other than the Managing Director) must offer themselves for reelection by shareholders at least every 3 years. The Board does not specify a maximum term for which a director may hold office.

The responsibility for the day-to-day operation and administration of the Company is delegated by the Board to the Managing Director/CEO. The Board ensures that the Managing Director/CEO and the management team is appropriately qualified and experienced to discharge their responsibilities and has in place procedures to assess the performance of the Managing Director and executive directors.

The roles of Chairman and Managing Director are not combined. The Managing Director is accountable to the Board for all authority delegated to the position.

Whilst there is a clear division between the responsibilities of the Board and management, the Board is responsible for ensuring that management's objectives and activities are aligned with the expectations and risks identified by the Board. The Board has a number of mechanisms in place to ensure this is achieved including:

- (a) Board approval and monitoring of a strategic plan;
- (b) Approval of annual and semiannual budgets and monitoring actual performance against budget; and
- (c) Procedures are in place to incorporate presentations to each Board meeting by financial, operations, exploration and marketing management.

This policy is reviewed annually.

- (a) accounting and finance;
- (b) business development and risk management;
- (c) industry and public company experience; and
- (d) an appropriate ratio and skills matrix for executive and nonexecutive directors.

In the circumstances where the Board believes there is a need to appoint another director, whether due to retirement of a director or growth or complexity of the Company, certain procedures will be followed, including the following:

- (a) determine the skills and experience appropriate for the appointee having regard to those of the existing directors and any other likely changes to the Board;
- (b) agree the process and timetable for seeking such a person, which may involve an external search firm;
- (c) a short list of candidates will be prepared for the Board's consideration and interview. The selection process will encourage visitation to the Company's operating sites and an understanding of management information systems. Candidates will be assessed on the following basis:
 - i. competencies and qualifications;
 - ii. independence;
 - iii. other directorships;
 - iv. time availability;
 - v. contribution to the overall balance of the composition of the Board; and

The Chairman regularly reviews the composition of the Board to ensure that the board continues to have the mix of skills and experience necessary for the conduct of the Company's activities.

If an invitation to become a director is accepted, the Board will appoint the new director during the year and that person will then stand for reelection by shareholders at the next annual general meeting. Shareholders are provided with relevant information on the candidates for reelection.

When appointed to the Board, a new director will receive an induction appropriate to their experience. This policy is reviewed annually.

Board

A process has been established to review and evaluate the performance of the Board.
