

CORPORATE PROFILE

Life tastes better our way

About us

At Aquna Sustainable Murray Cod, our mission is to produce great-tasting Murray cod, fully traceable from pond to plate, in a way that's respectful to the environment and our community.

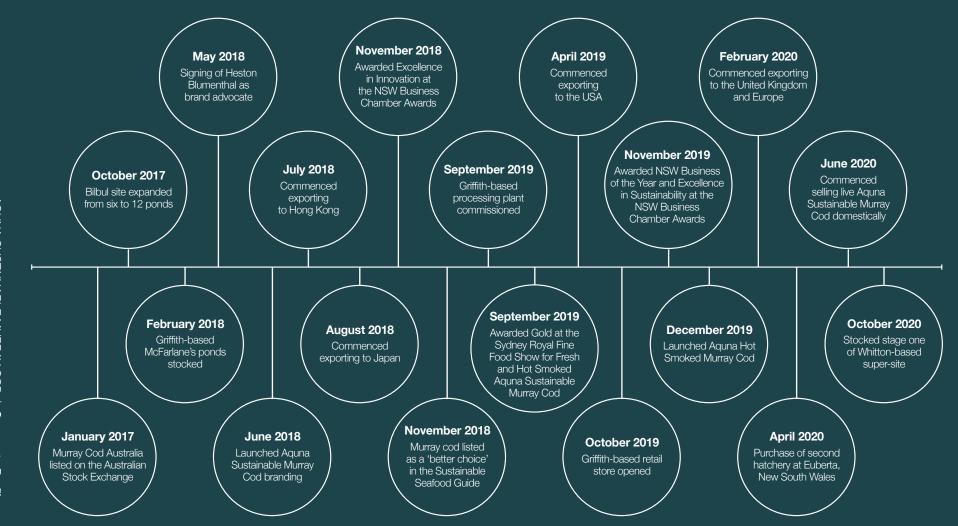

More than five years ago, a collective of pioneering irrigators in the Riverina region established an aquaculture industry — from scratch — approximately 550 kilometres from the nearest ocean.

Now, our premium, sustainably-farmed Murray cod — with a firm texture and natural, creamy flavour — is coveted as a fine-dining fish at top restaurants in Australia and in export markets around the world.

Aquna trades as Murray Cod Australia Limited on the Australian Securities Exchange (ASX code: MCA).

MISSION

Our mission is to produce great-tasting Murray cod, fully traceable from pond to plate, in a way that's respectful to the environment, our growers, and community.

VISION

Our vision is to make sustainably-farmed Murray cod the fine-dining fish of choice in Australasia and around the globe.

We stand for

At Aquna Sustainable Murray Cod, we believe the best product comes from the best approach. We want to make an impact on people's plates and their wider lives by inspiring a better way to deliver the future of food production.

LIFE TASTES BETTER OUR WAY.

Awards

Sustainable Murray Cod

Winner of Smoked Product & Fresh Fish Classes

2019 Winner of Excellence in Sustainability

2019 Winner of Business of the Year

We're producers of premium, pond-grown Murray cod

Aquna Sustainable Murray Cod is for customers who love great-tasting, white-fleshed fish with a firm texture and natural clean, creamy flavour.

Our sustainably-farmed Murray cod is more than a product.

It represents what's possible when science-based innovation and practices respectful to the environment are applied to food production.

By harnessing nature, we've created a premium product.

That's why we say: 'Life tastes better our way'.

A luxury fish product

Natural, clean flavour

Aguna produces fish with an natural, clean and creamy flavour because of the way the cod is farmed in open ponds.

Versatile cooking qualities

Its versatile qualities — when raw and cooked — makes Aquna perfect when pan-seared, baked, battered, steamed and grilled.

Our Murray cod is sought-after because it's grown sustainably in ideal conditions, in its native river water from the Murray-Darling Basin system.

AQUNA SUSTAINABLE MURRAY COD | Corporate Profile

A healthy fish product

One of the most documented and researched benefits of enjoying Murray cod is the fabulous Omega 3 & 6 fatty acid content it possesses.

Murray cod nutritional analysis

Nutrient composition of Murray cod	Per 100g
Energy (kj)	640kj
Protein	17.7g
Total Fat	9.2g
Saturated Fat	2.8g
Monounsaturated	3.7g
Polyunsaturated	1.8g
Omega 3	0.9g
Omega 6	1.0g
Carbohydrates	<1g
Sugars	<1g
Sodium	49mg

Vertical-integration, full traceability

With full traceability, Aquna Sustainable Murray Cod has a vertically-integrated approach for breeding, growing and supplying what is Australia's premium, great-tasting freshwater fish.

Hatchery

Broodstock are hand-selected to breed the best fish. Fish are grouped in age and genetic lines. Once the fish are weaned, they go to the nursery.

Nursery

In the nursery, fish are graded every three weeks. Stock, of the same size, are kept in recirculated tanks. Fish are held here until they're ready for the grow out farm.

Grow out farm

Fed daily, fish are also checked for good health. Fish grow here, until they reach market size (varies). Finally, fish are harvested and sent to market.

Growth Rate: From hatching to plate, the full life cycle takes approximately 18-months to 2.5 years.

Hatching Eggs

2 months

Fingerling 10 grams

8 months

Nursery stock 120 grams

18-months to 2.5 years

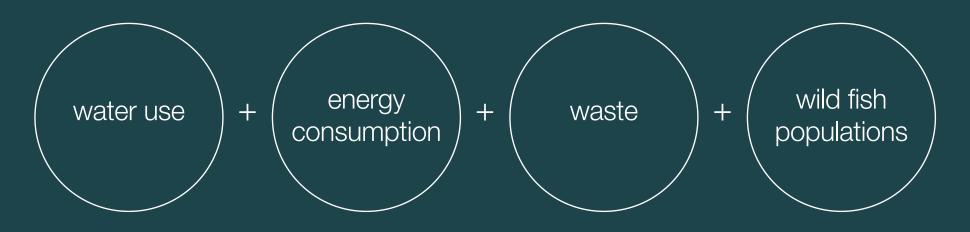

Grow out ponds 1.5 - 3.5 kilograms

AQUNA SUSTAINABLE MURRAY COD | Corporate Profile

Setting sustainability targets

At Aquna Sustainable Murray Cod, our goal is to set the environmental sustainability benchmark globally for the aquaculture industry.

We've set tangible targets to reduce our environmental impacts by addressing the following:

Sustainability and social report

At Aguna Sustainable Murray Cod, our goal is to have a positive impact on people's plates and the planet. Our vision is to set the sustainability benchmark globally for the aquaculture industry.

Over the last year, Aguna Sustainable Murray Cod's sustainability performance has focused on the eight key areas:

Award

Winner of the 2019 NSW Business Chamber Excellence in Sustainability award, which led to being crowned NSW Business of the Year.

Zero Organic Waste

Our Griffith-based processing plant diverts tonnes of organic waste from landfill through partnerships with recyclers and local pig farmers.

Energy Management

energy is now provided by solar power.

Through the installation of solar panels at our Bilbul nursery, 50% of our total nursery

By-product Trials

In an effort to continue to innovate and value add. R&D trials have begun on developing several by-product lines.

100% Water Recycling System

Our land-based production model uses the same water twice — once through fish ponds, then for crop irrigation or pasture on farms.

Restocking

We participate in a state government restocking program. To date, across our two hatcheries, more than 20 million fingerlings have been released into the river system.

Community

Through COVID-19, we have been participating in a Foodbank for Sydneybased out-of-work hospitality workers.

50% Reduction in Water Usage

Through closer monitoring, we have reduced our water usage by 50% in our ponds.

New ideas and collaborations

We handpick people keen to collaborate creatively with us as we develop new ideas and grow our customer base around the world.

The innovative way Aquna has created a luxury fish product by combining natural processes, evolved over millions of years, with cutting-edge technology connects with the way I approach food and cooking, resulting in fantastic quality.

Michelin-starred, Heston Blumenthal (pictured) prefers Aguna Sustainable Murray Cod

We serve our customers

Enterprising head chefs

Chefs who head up fine-dining restaurants in Australia and internationally, with a keen interest in high-quality, fresh, sustainable produce which they can prepare in creative ways to elevate the dining experience.

Enthusiastic home cooks

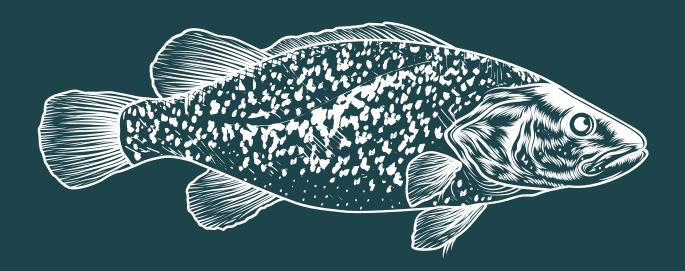

Home cooks who prefer to buy high-quality, sustainable seafood — and are willing to pay a premium price. As conscious consumers who prioritise ethical eating, they know they can send a clear message up the supply chain.

We're different

Aquna Sustainable Murray Cod is a consistent supplier of premium, pond-grown Murray cod, underpinned by an environmentally-conscious ethos that embraces research and development to drive new innovation and efficiencies.
